WORK EXPERIENCE

Teaching Assistant / Software Engineer | University of Oregon | August 2022 - Present

- Assessing student's understanding of full stack web development concepts such as server-side development, client-side development, database integration, test-driven development, object-oriented programming, and MVC architecture.
- Teaching market-driven technologies including HTML, CSS, JavaScript, MongoDB, Express.js, React, Node.js, among others.

Web Developer | Flitrr | July 2022 - August 2022

- Developed web pages using HTML, CSS, JavaScript, and React.js.
- Collaborated with team members through Jira and GitHub Projects.

PROJECTS

Beet Hub | Mongoose | MongoDB | React.js | Node.js | Express.js | GraphQL | Apollo Client | Apollo Server

- Platform for sharing and reviewing music albums built using the MERN stack. Users can share thoughts on music specific albums or even create their own custom album collections for others to view.
 - GitHub: github.com/StaticCloud/beat-hub
 - Deployment: blooming-tundra-89879.herokuapp.com

My Tech Blog | HTML | CSS | JavaScript | Bootstrap | Express.js | Sequelize | SQL | Handlebars

- Blogging website for developers built using MVC architecture. Users may write, delete, or edit their own blog posts and view and comment on posts written by other users.
 - GitHub: github.com/StaticCloud/My-Tech-Blog
 - Deployment: limitless-river-31622.herokuapp.com

EDUCATION

Associate in Science | Computer Science | Clark College | 2021

Certificate in Full Stack Web Development | University of Oregon | 2022
