SKILLS SUMMARY

Languages | JavaScript | HTML | CSS | SQL | MongoDB

Frameworks & Libraries | Mongoose | Express.js | React.js | Node.js | Bootstrap | Bulma | Jest | Handlebars | Sequelize | Apollo Server | Apollo Client | GraphQL | Redux

Tools | Heroku | Git | Insomnia

WORK EXPERIENCE

Full-Stack Web Development Teaching Assistant | 2U Education | August 2022 - Present

- Assisted with evaluating students' understanding of full-stack web development concepts such as server-side development, client-side development, database integration, test-driven development, object-oriented programming, and MVC architecture in boot camp cohorts consisting of 40+ students.
- Teaching market-driven technologies including HTML, CSS, JavaScript, MongoDB, Express.js, React.js, Node.js, among others.

Full-Stack Web Developer | University of Oregon Continuing and Professional Education | October 2021 - April 2022

- Successfully completed a 24-week full-stack web development boot camp that covers HTML, CSS, JavaScript, Bootstrap, Web APIs, jQuery, SQL, MongoDB, Express.js, React.js, Node.js, Apollo GraphQL, Git CLI, Heroku CLI, GitHub, computer science fundamentals, and Redux.
- Lead various teams on projects using Agile scrum methodologies.
- Graduated with a final grade of 96.39%

PROJECTS

Beat Hub | Mongoose | MongoDB | React.js | Node.js | Express.js | GraphQL | Apollo Client | Apollo Server

- Platform for sharing and reviewing music albums built using the MERN stack. Users can share thoughts on music specific albums or even create their own custom album collections for others to view.
- Heavily involved with team management as well as building React.js pages and components, database management, user authentication, GraphQL queries and mutations, and site functionality.
